

Summer "Wicked She of Ghoststone" - beloved HOPE dog of Joanne Huntley, PNW

April 12, 1993 – February 2, 2005

Summer was a show dog who also gained titles in Agility competitions, but her first priority was working as a Delta Society Pet Partner volunteer (certified in 1996), and also with HOPE AACR (certified in January, 2002). She particularly loved working with children and the elderly.

Summer and Joanne were with a group named "Have Paws Will Travel", who volunteered at Bonny Hayes Animal Shelter in Washington County. They staffed a booth for the shelter at the annual County Fair for years. They volunteered weekly at a Women's Shelter and Children's Evening Care Center, at a Head start Program in Hillsboro Elementary School, and from 1996, until Summer was retired in mid-2004, at the Hillsboro Rehab/Extended Living Center.

Summer was diagnosed with bone cancer in her leg in 2004, sadly, she did not fully recover, and succumbed 3 months later.

Summer was a 75 pound bundle of chocolate Labrador love, and continues to be greatly missed. She left her sweet paw-prints on the hearts all those who knew her.
